The Ravenser PR1.200 has a nifty high/low beam setting, similar to that seen in a car, which can be used to avoid dazzling oncoming road users.

Best bike lights 2020 | Front and rear lights for road ...

The water tower would be essential to any desert settlement, while the high-tension power lines, radio stations, and oil rigs would introduce some colour breaks to the background. I also think that a lean-to borrowed from the Canal St. Deli & Food Mart would make for a good spawning point for this particular map!

WIP Beta released - The long desert road | BeamNG

You may have inadvertently disabled the system. Try re-enabling the auto high beam operation by pulling the lever toward you and holding for –30 seconds until the auto high beam indicator on the driver's information interface display blinks once.

Auto high beams | Gen 3 Insight Forum

When driving through an area of intermittently changing brightness and darkness. When frequently and repeatedly driving ascending/descending roads, or roads with rough, bumpy or uneven surfaces (such as stone-paved roads, gravel tracks etc.). When frequently and repeatedly taking curves or driving on a winding road.

Toyota Highlander Owners Manual: Turning the high beam on ...

The normal headlights are on far more often than the high beams, so the low beams burn out more frequently. Some vehicles have entirely different bulbs for the high beams, and other models have headlights with two different filaments. Either way, if your low beams aren't working but your high beams are, the first things we check are the bulbs.

5 Reasons Headlights Not Working but High Beams Work in ...

2008 X3 3.0si. So driving along and the left turn signal and high beams flash on randomly. The guy ahead of me is wondering what the hell is going on and so am I. I pull over and shut the car down, restart and now the left turn signal and high beams are stuck on. Limp home, search the web and...
